Attached is a Personnel Action Request, Form 37-3, and other documents as indicated on the form, pertaining to the case of [redacted] an individual interviewed by the Fiscal Division in connection with a possible position in the [redacted]. Since this case is somewhat peculiar it is desired to relate the facts received, for consideration and attention in the Personnel Branch, as follows:

[redacted] in 1941 or the early part of 1942, was employed with Ordnance, War Department, at the time that particular unit was moved because of shortage of building space and housing facilities in the vicinity of Washington, D. C., to Detroit, Michigan. It is my understanding that the War Department has authority to return such personnel to the point of original assignment (Washington, D. C.) after cessation of hostilities and when other conditions permit. It is, therefore, suggested that appropriate officials in the War Department be contacted with the view in mind of having the individual returned to Washington, D. C., after necessary clearance has been secured, for his assignment with the Central Intelligence Group.

25X1A9A

[redacted] as will be noted, has had approximately 16 months of pay roll employment under the system referred to as Civilian Personnel Regulation #120, which is the same procedure followed within the Central Intelligence Group with relation to civilian pay roll. His services are particularly desirable because of this training; since he would be able to, concurrent with reporting to duty, fill an active position of servicing several hundred employees in pay roll matters.

As can be verified through the appointment division in the personnel office, repeated requests have been made by the undersigned for personnel having pay roll experience under the CPR-120 system. This individual, plus a couple of other employees (one of which declined an offer) are the only employees with such qualifications that have been referred here for interview. Request for employment has been presented for each individual, but at the present none have reported to duty. It is understood that one of the individuals will report by 22 September 1947.
